---

### Objective

To complement the refurbishment and re-design of the prestigious Park Hyatt Sydney hotel. The solution needed to accentuate many of the architecturally designed guest rooms featuring floor-to-ceiling glass that open onto private balconies, honouring Park Hyatt Sydney's coveted harbour front location.

### The Solution

Motorised Roman Blinds was favored for installation for the iconic hotel and its masterfully redesigned interior spaces to capture that essence of relaxed and comfortable feeling, with a hint of luxury provided by the breathtaking views of Sydney. It's timeless and durable characteristics has been given a modern feature with a motorised system, for easy operation for visitors to create privacy or provide spectacular views.

160 Motorised Roman Blinds were fitted in the hotel refurbishment which has been connected to Somfy Motor Controllers for operational control and effortless management throughout each rooms to cap off the success of the hotels new brand identity and redesign.
