

Project Sofitel

www.luxview.com.sg

Overview

Location:	Collins Street, Melbourne	“Rejuvenating itself to keep up with the metropolitan and ever changing culture of Melbourne. The luxurious, Sofitel on Collins has re-
Architect:	Webbplus	vamped their rooms with the latest and environmental friendly
Product:	Roller blinds	roller blinds across the whole building, whilst giving visitors a
System:	Manual & Single	magnificent view in the heart of the CBD.”
Qty:	1,200	

Objective

To replace existing blinds with fabrics that were sympathetic to the room design and did not omit odours or ‘smell’ like existing blinds. In addition the blinds had to provide connectivity to the external views whilst allowing for privacy.

The Solution

Trevira CS Euroview Transparent Manual and Single Roller blinds were chosen to complement the sophisticated and contemporary design to one of the finest luxury hotels Melbourne has to offer. An elegant sheer fabric, it minimises light coming in from the rooms allowing privacy whilst eliminating any odour from the application.

Approximately 1,200 Manual and Single Roller blinds were fitted into the hotel with different varying drops depending on the sizes of the windows. Easy to handle and simple to use, the manual and single roller allows potential visitors to absorb the beautiful skyline and cosmopolitan culture of Melbourne in the comfort of their own room.
